ZTA(Zero Trust Access) VPN v0.2.13

User Manual (Windows 10/11)

The IT administrator will provide the download link, or you may consult IT administrator for download instructions.

For example:
URL : https://[Wan IP Address or Domain]:[HTTPS Port]/ztavpn.php
https://168.88.8.8:4433/ztavpn.php or
https://domain:4433/ztavpn.php

1. The image on the right shows a regular user login with account and password. The image on the left shows the first-time two-step verification process, which requires binding a mobile device. Users need to download an Authenticator app, such as Microsoft Authenticator or Google Authenticator (choose one).
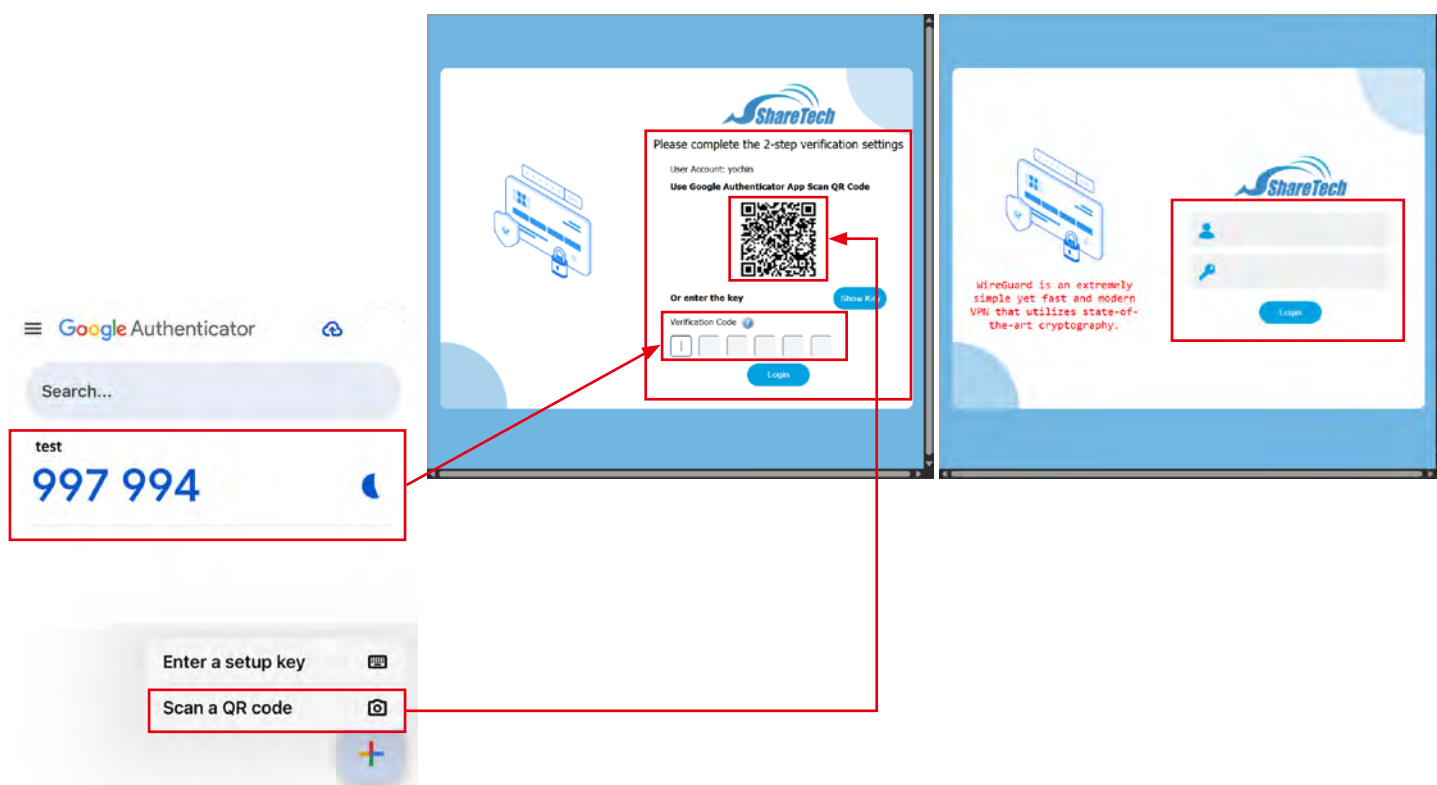

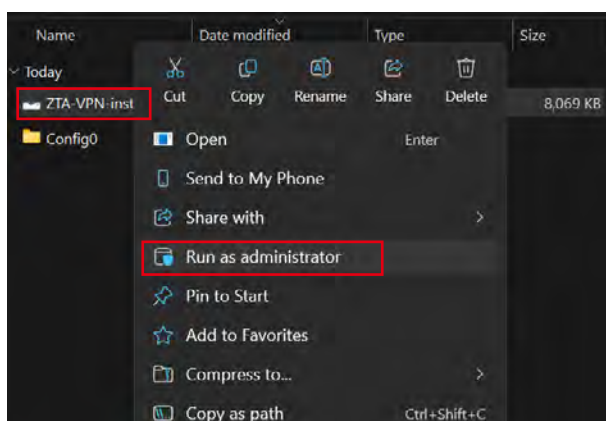

2. Download Software and Certificate (zip)
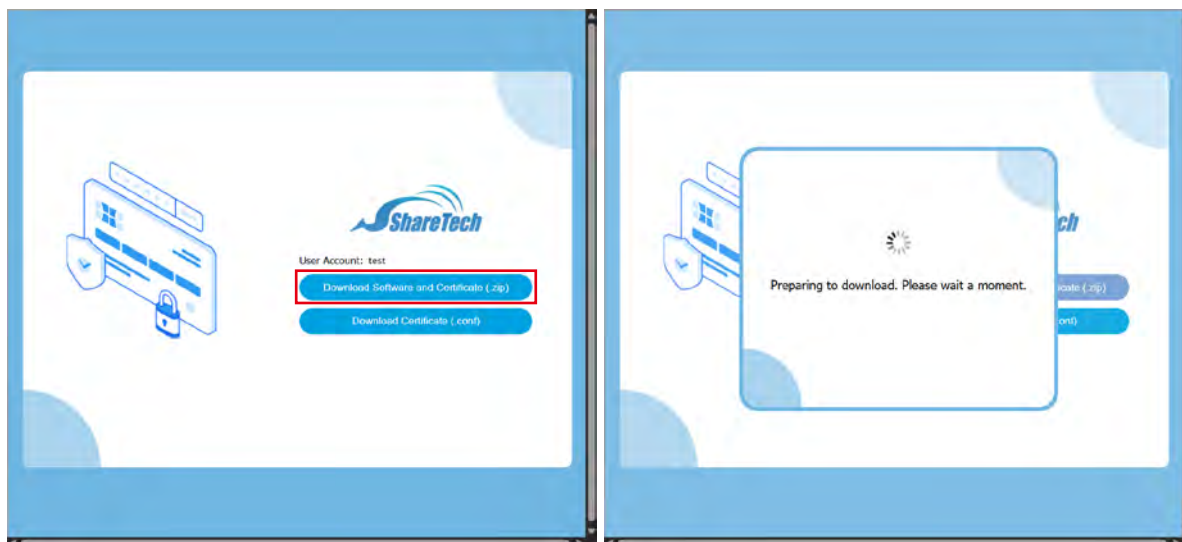

3. Right-click and Extract Compressed (zipped) Folder.
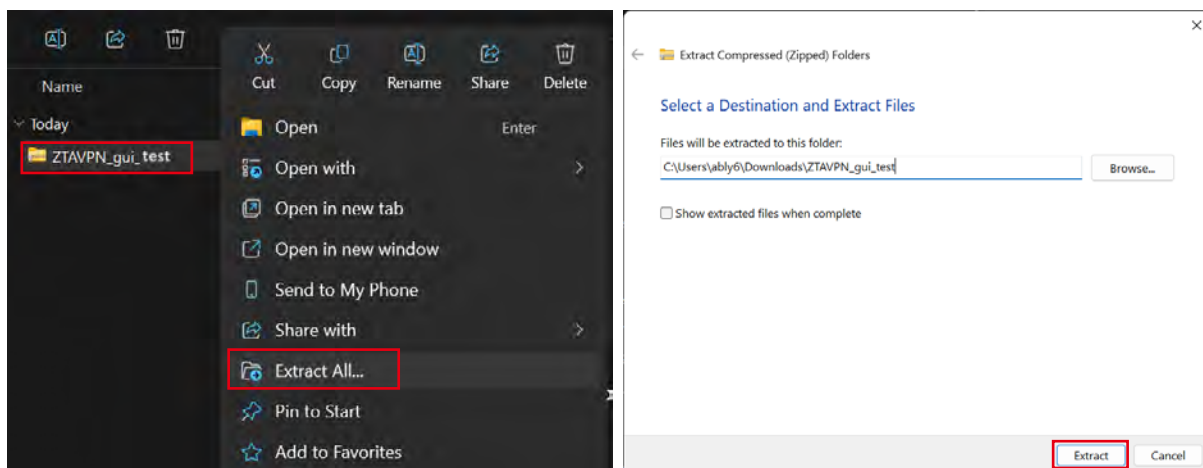

4. After Extract Folders, right-click and select Run as Administrator

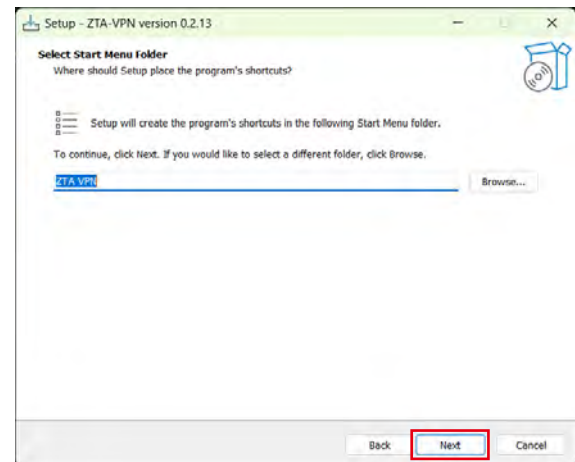

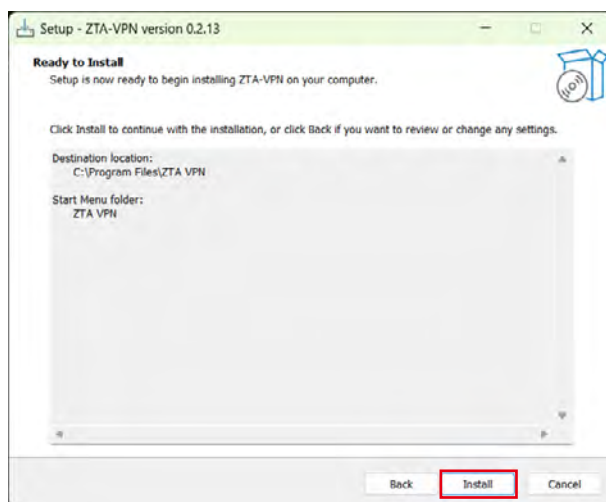

5. Select YES

6. Select Destination Location > Next

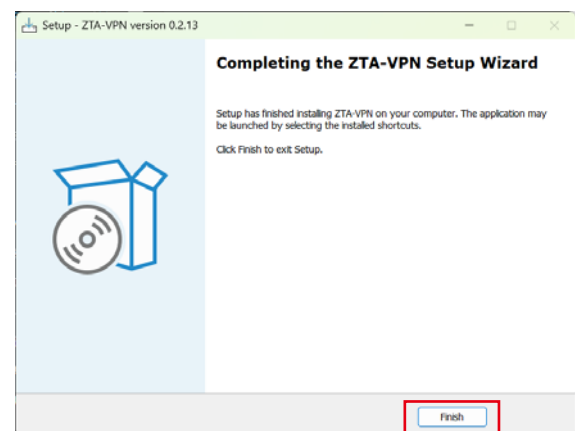

7. Select Start menu Folder > Next

8. Ready to Install.

9. Completing the ZTA-VPN.

10. Double-click ZTA-VPN application.

11. It shows IP address and Port. Please enter Username and Password.

Please refer to Step 1: If two-step verification is not enabled, leave it unchecked. If it's enabled, check the box. Enter the verification code, and then click Activate.
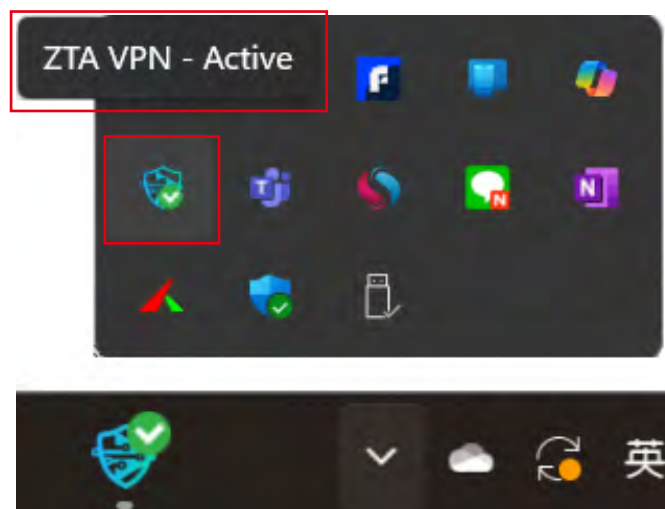

12. After connecting, it shows Bulletin Board.

13. ZTA-VPN Tunnel status.

14. You can see the ZTA VPN status in the system tray (Show hidden icons), whether it is active or inactive.

15. ZTA-VPN network segment.

**16.** In the system tray (Show hidden icons), and then right-click ZTA-VPN.

16-1. ZTA VPN Bulletin Board

Users can read Bulletin Board while connecting.
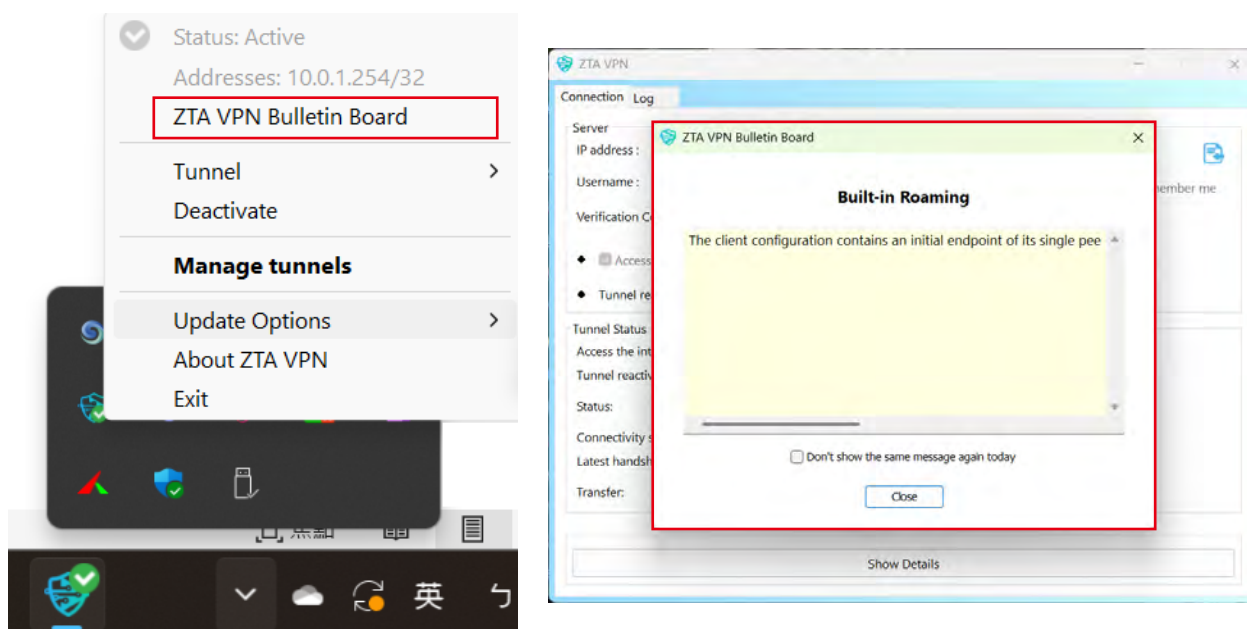

16-2. Update Options

When a user connects, the system will actively check the version status with the server and prompt for updates, eliminating the inconvenience of requiring users to manually download updates after a version change.
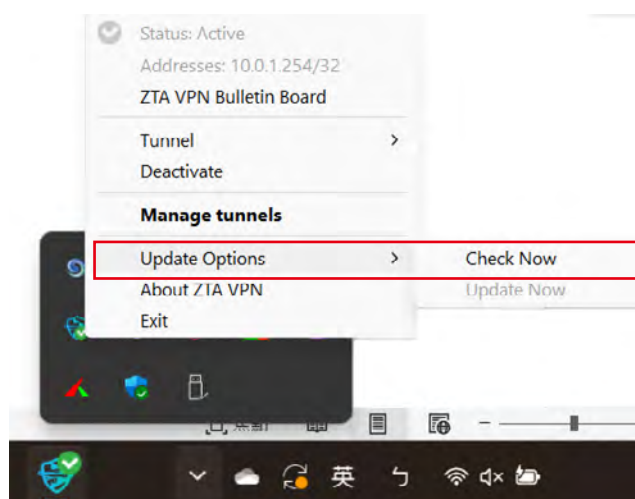

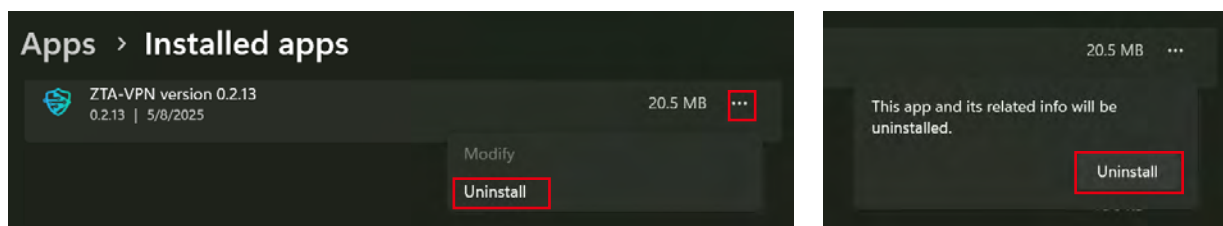

16-3. About ZTA-VPN

It shows App version and MAC address

How to uninstall ZTA-VPN?

Computer Settings > Apps > Installed apps > uninstall > This app and its related info will be uninstalled.

Do you want to allow this app to make changes to your device? → YES

ZTA-VPN was successfully removed from your computer.
